Really enjoyed the course, probably the best one for me this semester. Great teaching techniques and ok in class assignments. TA was very good and helpful as well. Great job. Project was too lengthy however.

The Professor and TA are extremely helpful and knowledgeable and enthusiastic about the course. Great professor. The project was also helpful in reinforcing materials learned in class. Just suggest that the professor provide more details and structure for the project. Overall, great professor and TA. Lab sessions were helpful too.

TA was excellent. I would have appreciated more difficult homework problems to prepare us for the exams. I felt the HW was ton simple therefore not reflective of the exams. I appreciated the challenge of the term project.

Availability of instructor and TA were outstanding! I feel as though more examples should be taught in class.

Course was well organized. Professor and TA were available for questions. Overall, a great course compared to my other courses.
